

DEVnet advises banks, insurers and investment companies throughout Europe. Our interdisciplinary teams develop innovative solutions in the fields of trading, risk and finance. We combine specialist expertise in investment banking with the latest information technology. We are based in Munich, Frankfurt/Main, Hamburg and Wroclaw.

We are expanding our team in Wroclaw due to our growing business, offering career opportunities for

Junior Business Analyst in Investment Banking

Investment banking projects require both specialist expertise (e.g. financial markets, complex products and derivatives) and IT solutions. Our staff must therefore have a great interest in investment banking and technical challenges alike: both components are needed to create innovative solutions which keep pace with rapid developments in the investment banking sector.

As part of teams working with our clients, you will discover the investment banking consulting and project business from our experienced advisors. You will be able constantly to develop and expand your specialist expertise and working methods to enable you to act as a "hybrid" at the challenging and exciting interface between these two sectors. We will work with you to prepare you for new tasks and greater responsibilities.

You will analyze and structure problems, draw up specifications and solutions and be closely involved in their implementation. You will contribute both to specialist analyses and technical specifications.

Requirements:

- Degree in applied financial mathematics, physics or computer science
- Working knowledge of Matlab, R, Mathematica, SAS or Excel with VBA
- Experience in market data, databases, writing and understanding specifications
- Programming experience is advantageous
- Knowledge of financial engineering topics, asset classes, investment processes
- Close interest in investment banking and financial markets
- Good command of English is essential, German an advantage
- Readiness to travel abroad

We offer:

- Expert training in finance and various IT related topics
- Working in an international environment
- Opportunity for constant individual development
- Attractive compensation packages

We look forward to meeting you in Wroclaw.
